REORGANIZE S. A. BASEBALL LEAGUE AT MAGRATH SUNDAY — EIGHT TEAMS WILL PLAY IN ONE DIVISION, SCHEDULE TO BE DRAWN UP IMMEDIATELY — L. D. KING ELECTED PRESIDENT OF THE LEAGUE

Magrath, May 21.—The annual reorganization meeting of the Southern Alberta Baseball league was held in the town of Magrath on Sunday at 3 o'clock in the town hall. Delegates from the nine teams entering the league were present. Those clubs which were represented were as follows: New Dayton, T. K. Moreland; Stirling, D. M. Peterson; Raymond, W. Palmer; Magrath, G. Woolley; Cardston, C. B. Cheesman; Macleod, D. W. Davis; Spring Coulee James Murphy; Lethbridge Miners, J. R. Zuback; Aetna, W. Brooks.

The meeting opened with L. D. King in the chair and J. E. Harker, past president, and William Laidlaw, secretary-treasurer of last year's executive, present. C. B. Cheesman, president of the A. A. U. of C., and Lyle Holland, president of the A. B. A., also were present. The secretary read the minutes of the last meeting and also a statement of the league's finances. This latter showed a balance in the bank of $110.

The following officers were elected for the 1928 season: president, L. D. King, Raymond; first vice-president, G. L. Wolfe, Magrath; second vice-president, D. W. Davis, Macleod; secretary-treasurer, W. Laidlaw, Cardston.

Open Season May 30

It was decided to play all nine teams in one division and this will require about two games per week per team to be played in order to complete the schedule in time for the provincial championships. Aetna stated that they would be unable to play that often and withdrew from the league. The date of opening the season will be May 30. L. D. King, W. Palmer and D. C. Peterson of Raymond, were appointed a committee to draw up a schedule of games and the new executive was instructed to enforce energetically the rules of the constitution requiring that all players hold amateur cards and playing certificates from the A. B. A. before playing any league game. Arrangements were made to see that this would be done.

The meeting was informed that the cup donated by P. V. Parkes of Lethbridge, and given to the champion of the league, was not awarded last year due to the failure of Hillspring and Spring Coulee to play out games between east and west divisions.

A vote of thanks was tendered D. C. Peterson of Raymond for printing free of charge last year's schedule of games. A similar vote to the town of Magrath for the use of the town hall in which the meeting was held was also given.

TENDERS

Tenders for the purchase of the building and lots Nos. 16-17 and 18 on the North side of 23rd street West of 5th Avenue (known as the Stevens stable) will be received by the undersigned, up to Noon of Monday, the 4th June, 1928. The highest or any tender not necessarily accepted.

E. FORSTER BROWN,
12-3t Secretary-Treasurer.

THE MUNICIPAL DISTRICT OF BRIGHT No. 69

Requires the services of two men to act as Weed Inspectors for the season of 1928 at a salary of $300.00 each.

Applications must be in the office of the secretary not later than June 6th.

HARRY W. BRIGHT,
12-3t Secretary.

THE PUBLIC HEALTH ACT

(Being Chapter 58 of the Revised Statutes of Alberta 1922)

NOTICE TO RESIDENTS OF THE MUNICIPAL DISTRICT OF BRIGHT No. 69

After this date any householder who ascertains, or has reason to suspect that a person within his family is infected with an infectious, or contagious disease, neglects to notify the undersigned within twelve hours, shall be prosecuted under the Public Health Act.

Signed at Macleod this 15th. day of May 1928.

HARRY W. BRIGHT,
Secretary of the Health Board of the Municipal District of Bright No. 69. 12-3t

BRITISH NOTE ON OUTLAWRY OF WAR HANDED TO US. S.

London, May 19.—Sir Austen Chamberlain, British foreign secretary, personally handed the British reply to the Kellogg outlawry of war proposals to A. B. Houghton, the American ambassador at the foreign office today.

Sir Austen Chamberlain, the British foreign secretary, said in the house of commons on April 30 that the British government warmly welcomed the proposals of the United States for a further joint effort to safeguard the peace of the world.

On May 10 Sir Austen said that the British government not only warmly welcomed the initiative of the United States but was hopeful it would be concluded successfully and would make a real contribution to world peace.

Last Tuesday the house of lords approved unanimously a motion introduced by the Marquis of Reading asking prompt and favorable acceptance by the government of the proposals.

Germany was the first to accept completely the proposals, a note dated April 7 being made public in Washington to that effect on April 30.

A lengthy peace proposal article under the pictures of Sir Austen Secretary Kellogg and Briand in the Evening Star, carried the caption: "America's world peace plan accepted."

The paper declares that in handing the note to Ambassador Houghton, Sir Austen intimated Britain's acceptance of America's suggestion that the great powers of the world should sign a pact outlawing war.

JAPANESE WILL HOLD MANCHURIA

Pekin, May 19.—Refusal of Chang Tso-Lin, northern dictator, to heed a Japanese warning intended to prevent Chinese civil war from spreading to Manchuria intensified the situation in China today. Chang was advised by the Chinese to retire to Manchuria because, if he were defeated by the Nationalist southerns he would not be permitted to seek refuge there, since Japan would tolerate no fighting in that province. Chang made plans instead to drive back the southerners while Japan proceeded to increase the Japanese garrison at the seacoast end of the great wall, blocking any possibility of Chang's retreating through there.

This was regarded as the most momentous development in the far east since the great war. There were suggestions that Japan was establishing a protectorate over Manchuria, in which the Japanese have a large amount of capital invested.

The Japanese expected bitter hostility from all Chinese because of their note of warning to both north and south China and because of the recent bloodshed at Tsinan.

HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION — PREVENTION OF HEART DISEASE

In Canada, during the year 1926, over 11,000 persons died of heart disease, the total deaths from all causes being approximately 107,000.

Heart disease which kills in adult life is, in a large percentage of cases, due to conditions which occurred in childhood. The prevention of heart disease therefore, in adult life, in many cases depends upon the proper care of the growing child.

Heart disease seems to be associated with the type of infection we call rheumatic. We do not know a great deal about this rheumatic infection but we know something of real value in the prevention of its serious results.

Growing pains in children should be considered as evidence of a rheumatic infection. They frequently precede definite attacks of rheumatism, chorea (St. Vitus' dance) and heart conditions.

Sore throat or diseased tonsils without soreness of the throat are evidence of a possible centre or focus of the rheumatic infection.

Chorea is a rheumatic infection. At first it may be nothing more than a restlessness or fidgetiness, the jerky movements coming later.

All such cases should be placed under the family physician for treatment if heart disease is to be prevented.

All those who have damaged hearts do not die of heart disease. If proper care be taken, they usually live a long time and die of some other malady. It is those persons who will not, or who practically cannot take proper care who grow progressively worse.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

ALBERTA SCHOOL WEEK

An "Alberta School Week" is planned to arouse the public to greater appreciation of the work and organization of schools and to stimulate a spirit of co-operation by public, parents, and school workers in the matter of education, according to a recent decision of the Educational Committee of the Alberta Teachers' Alliance, at a recent meeting.

All publicity is to be of a non-controversial character and it is planned to enlist the co-operation of press throughout the Province, in the form of intensified news day by day throughout the week, dealing with local or general educational topics and special articles by educationists and local teachers. Special sermons on education will feature the Sunday sermons in the churches on the opening day of the week; there will be a rally of parent-teacher associations or federations as well as special addresses by teacher speakers at service clubs and similar organizations. It is expected that all parties and organizations interested in education, including the Department of Education and the Alberta Trustees' Association and local school boards may be enlisted in the endeavor, and in the schools themselves special programs, comments by teachers and exercises by pupils and addresses by prominent citizens on the value of education will be featured.

The date tentatively planned by the Committee is October 1 to 7. The Educational Committee is representative of every section of the Province and it includes every member of the Provincial Executive of the A. T. Alliance and the following in addition: W. L. Irvine, Oyen; F. Speakman, Calgary; H. C. Newland and Miss Mary R. Crawford of Edmonton; P. L. F. Riches, Medicine Hat; R. E. Hicken, Cardston; J. Welsh, Red Deer; A. J. H. Powell, Fort Saskatchewan; Mrs. J. Jakey, Drumheller; H. C. Beacom, High River; R. E. Stewart, Olds. C. G. Elliott, Edmonton was elected Chairman.

A TALK TO HOUSEWIVES

Real warm summer weather is just around the corner, hot days when it is impossible to find a cool spot anywhere, when hot food is nauseating and cold dishes are the order of the day. It is then that the housewife has to use her wits to invent and evlove dishes that will be tempting and at the same time nourishing.

The most perfect food we have is milk. It is the cheapest food we have, and it is of all foods the most difficult to collect, handle and transport. It requires the greatest care from cow to container, and from container to consumer. Milk spoils quicker than any other food. It is difficult to handle during the winter and much more so during the hot summer days. It must be kept Clean, Cold and Covered.

Milk tastes good; it is easily digested and is most nourishing. It makes bone, brawn and blood. Indeed it isn't too much to say that the vigor and success of a nation depend largely upon the amount of milk it uses. Milk is the great factor of safety in diet. It makes the ration complete, promotes growth and keeps the body strong. In the warm months when meat is not desired, various dishes can be made with milk, both hot and cold, and the cold ones are delicious. The housewife and mother need never worry about the question of calories and vitamines for the little folks if she feed them milk, milk that has been kept Covered, Cold and Clean.

The various members of the germ family love two things:—Suitable food and warmth in which to grow and multiply. Milk is to them the choicest of foods and warmish milk is their paradise. When the housewife buys milk she does not buy a "germ" paradise", she buys a nourishing food for her family. So she buys milk that she knows had been handled in a proper manner. She keeps it Covered and Cool. For those who have no refrigerator an efficient ice box can be made at home. Write to the Red Cross, 408 Civic Block, Edmonton, Alta., and get instructions how to do it. Recipes of delicious Summer milk dishes may be had from the same source.

It's easy to trace customs to their origin. People bite money to see if it's good. In the early days, Virginia leaf was used as money.

No man is licked while he retains pride enough to polish his shoes. It seldom happens that a suicide has recently cut his toe nails.

$1,600 DAMAGES WITH COSTS ARE AWARDED IN CLARESHOLM CASE — MR. JUSTICE WALSH FINISHES DOCKET AT MACLEOD SITTINGS

At the court house Wednesday Morning May 16th, before His Lordship Mr. Justice Walsh, the case of Watt vs. Bates of Claresholm for deterioration of land, no returns on account of bad farming or of farming at all. This was a jury case on which A. Young, R. M. Clement, D. M. Leyden, J. E. F. McNab, R. Thompson and H. Saques were the jury. The case occupied the court all day Wednesday and Thursday morning, when after a short deliberation the jury gave their verdict in nine points, all in favor of Watts, amounting to $1,600 damages, with costs, and to be paid in six months, and after that date if no payment is made this amount to become part of the purchase price, as additional to the purchase price. If after six months no extension of time for payment is asked, the original owner may foreclose and recover the land. J. W. McDonald, K.C., was for the plaintiff and J. K. Paul for the defendant.

Thursday afternoon the case of Irish and Rieber another land case was heard in which Irish claimed damage to his homestead, which he leased to Rieber. After hearing several witnesses on both sides an order from the court will be given for the cancellation of the agreement, and the settlement of damages will be arranged. J. J. MacDonald, barrister, appeared for the plaintiff and J. Vaselenak of Lethbridge for the defendant.

This concluded the sessions of the Supreme Court, and Judge Walsh left for Calgary.

BUFFALO BILL'S OWN LIFE STORY IN FILM SERIAL—FIRST CHAPTER OF PLAY STARRING WALLACE MACDONALD COMING TO EMPRESS FRIDAY—SATURDAY

Buffalo Bill's own life story, adapted from his experiences in the pioneer country when the Indians still contested the white man's advance, is the gist of the Adventure picture, "Fighting With Buffalo Bill," which will be shown Friday and Saturday at the Empress Theatre.

Wallace MacDonald is the star of this chapter play of wagon trains, Indian battles and love. The scenario was written by George H. Plympton from Col. William Cody's book "The Great West That Was," an account that fairly bristles with the sensational engagements in which Buffalo Bill played a spectacular part.

In order to lend a continuous interest to the historic chapter play the producer has taken the liberty of portraying a group of characters typical of the pioneers of the period. The experiences of these westward moving people, with their love, their hate and their greed, add to Col. Cody's gripping tale a highly dramatic human story.

Wallace MacDonald stars in the production, which was directed by Ray Taylor.

MENJOU FILM SURPASSES FAMOUS STAGE PLAY

What was lost in the stage play has been amply made up in the screen production of that cefebrated Sardou drama, "Captain Ferreol," to be shown under the title of "A Night of Mystery" at the Empress Theatre Monday and Tuesday.

Adolphe Menjou is the star of this Paramount picture, and presents a fine characterization, as the dashing Captain Ferreol, of the French-African Chausseurs, the idol of women but an admirer of only one.

The story makes good screen material, and it is drama from the start. Tense moments are to be seen throughout, and the plot is particularly gripping.

The tale centers about the love of Captain Ferreol for the beautiful Therese D'Egremont, and the admiration of Gilberte Boismartel, a married woman, for Ferreol. Ferreol spurns the latter's attentions, but one night while visiting her in her boudoir, he sees a man murdered. The slayer has seen the love tryst, and threatens to tell all he knows if Ferreol accuses him. Later, the brother of Therese is tried for the killing. Ferreol must keep his silence or ruin the reputation of Gilberte, the wife of the judge hearing the case. If he does remain silent, he will break the heart of the girl he loves.

That situation brings about a thrilling climax, enacted as only a star of Menjou's magnitude and ability could do it.

In the supporting cast are Evelyn Brent, Nora Lane, Raoul Paoli, Frank Leigh, Claude King, Margaret Hurt, and William Collier, Jr.

GAME LEAGUE REPORTS PROGRESS

The Macleod and District Game and Fish League which has just been organized in Macleod under the presidency of Arthur Young for the purpose of the observation of all Game Laws and the protection of birds and fish out of season is going ahead by leaps and bounds. There are nearly a hundred members, and many promises of more, the subscription for the year is only one dollar, and secretary J. L. Fawcett is very pleased with the manner in which the members are joining and paying up.

Judge A. M. Macdonald and Mr. A. T. Leather have each given a donation of five dollars towards the new association, and it is expected other voluntary subscriptions will be sent in.

Four pairs of pheasants purchased by the League have already been received and set out at suitable locations.

No pheasants eggs could be secured this year although every effort was made both by the Secretary and President to locate them.

Honest to goodness sportsmen in Macleod should not fail to jois this Club as it is filling a necessary gap for the Nimrods and Waltonians in the Macleod district.

The Bolshie's red glare, the bombs bursting in air, give proof to the Right that the Legt is still there.

SERVED AS SURGEON AT OLD FORT MACLEOD—DR. NEVITT, WAS MEMBER OF ORIGINAL R.C.M.P. CONTINGENT THAT TREKED ACROSS PRAIRIES

Dr. R. B. Nevitt, one of the oldest and best known of Toronto's medical men, who was a member of the R. N. W. M. P. originals, died at Toronto recently. R. B. Nevitt was born in Savannah, Georgia, the son of John Wilson Nevitt, prominent merchant of that town. While Dr. Nevitt was a boy in his early teens the great conflict between north and south broke out. The education of the lad in a strife-torn country was practically impossible, so he was sent to Bishop's College at Lennoxville, Quebec. There he received his secondary education, and on completing that course came to Toronto and entered Trinity College, taking an arts degree in 1871. He had just started studying for his medical degree when he decided to join up with the original troop of Northwest Mounted Police who were then leaving for the west. He served in the capacity of assistant surgeon and made the long, wearisome trek across the prairies to the foothills of the Rockies on horeback. After having served some time at Fort McLeod, he returned to take up anew his medical studies. In 1874 Dr. Nevitt received the degree of bachelor of medicine from the old Trinity medical college, and eight years later succeeded in gaining his M.D.

THE EMPRESS THEATRE --- CURRENT ATTRACTIONS

"ANNIE LAURIE" A HUGE AND COMPELLING DRAMA—WARS OF THE HIGHLAND CLANS BACKGROUND OF NEWEST LILLIAN GISH FILM

Lillian Gish—ethereal and beautiful — in the stern setting of the wars of Highland clans—in the majestic splendors of ancient Scottish castles—in settings that blend the legend and romance of Scotland with the grim details of its turbulent history—this is the Lillian Gish of "Annie Laurie," latest vehicle of the famous star, playing at the Empress Theatre next Wednesday and Thursday.

It is a gigantic story of human souls; a romance of love as great as the huge settings in which the story is told; it is a historic drama that eclipses anything of the kind seen in years—all the more wonderful because it deals with a people never before seen on the screen.

The ancient Scots, with their court intrigues — their implacable clan warfare, and their delicate sentiment underlying the ever-present lust for battle—these are reproduced with startling fidelity in the big Metro-Goldwyn-Mayer spectacle.

Famous old castles, including historic Maxwelton, were reproduced. Hordes of kilted warriors struggle; gaily caparisoned courtiers in the king's antechamber plot untold villainy—and through it runs the glorious story of the love of Annie Laurie and Ian MacDonald—a love that changed the course of history, centuries ago, and unified the Scottish nation.

Norman Kerry is seen as the hero of the romantic spectacle; a fighting romanticist. Hobart Bosworth is the grim "Wolf of Glencoe," the implacable old chief of the men of Glencoe. Brandon Hurst is the villainous Breadalbane and Creighton Hale the treacherous Donald. David Torrence, Russell Simpson, Patricia Avery, Joseph Striker and other well known players are ideally cast under the direction of John S. Robertson.

The story is based on actual history surrounding the Glencoe Massacre, when the Campbells and the MacDonalds, struggled for supremacy in one of the strangest conflicts in all history. Josephine Lovett, the author, utilized this gigantic episode in history as the background for a stirring drama that might almost be classed the film epic of Scotland.

RIN-TIN-TIN HERE SOON IN THRILLING DESERT FILM

Manager Cutler of the Empress Theatre announces to children of all ages that Rin-Tin-Tin comes to his house next Friday and Saturday, in Warner Bros. "Jaws of Steel," an exciting story of young prospectors and desert gold. Ray Enright who directed Rinty in "Tracked by the Police" directed him in "Jaws of Steel" which includes in its cast Jason Robards, Helen Ferguson, Baby Mary Louise Miller, Robert Perry, Jack Curtis and George Conners.

Rin-Tin-Tin's milions of admirers, will find in this latest production of his, thrilling stunts, and flashing bits of humor, which even his earlier films have not had. The old boy seems to know just what it is all about. He seems to know that he is an actor and to glory in it.

RINTY MAKES HIS BOW-WOW SOON IN "JAWS OF STEEL"

Rin-Tin-Tin in "Jaws of Steel" will be the Warner Bros. offering at the Empress Theatre next Friday and Saturday. This is Rinty's biggest, ripsnortingest thriller, and has to do with his being lost in the desert from a pioneer's flivver, growing up in the desert to be a wild wolfish savage, and finally saving the friends, Mr. and Mrs. Warren and the Kid, from dangers that threaten them. In support are Jason Robards, Helen Ferguson, Baby Mary Louise Miller, Robert Perry, Jack Curtis and George Conners. Ray Enright directed. Don't miss seeing Rinty in the greatest picture of his great career! Your gang'll be there!

STANDOFF INSTITUTE GIVE VARIED PROGRAM

Macleod, May 17.—A varied program and a jolly afternoon was how the Stand-Off Women's Institute spent their monthly meeting last week. For variety and interesting meetings it would be hard to beat these farm women out at Stand-Off and district. To every member these meetings are not only educational, but are so enjoyable that they are looked forward to with real delight and pleasurable anticipation.

The meeting this week was held at the home of the secretary, Mrs. Eddie Whipple, and associated with her as hostess was Mrs. Athol Hovis.

The convenors responsible for the program were Mrs. Walter Loyst and Mrs. W. E. Young. The business part of the meeting was hurriedly gone through, after which Mrs. Loyst gave an interesting paper on agriculture, giving a detailed account of its different branches, emphasing specially the planting of trees and flowers round the farm house.

Many a man thinks he's tolerant when he is just too shallow to develop a conviction.

ANNUAL AGRICULTURAL STATISTICS, 1928

Ottawa, May 16, 1928, 4 p.m.—The Dominion Bureau of Statistics has made the customary arrangements for the collection and publication of the annual agricultural statistics of Canada for the year 1928. These statistics will be based upon returns to be collected next June from individual farmers upon cardboard schedules issued to them through the teachers and children of the rural schools. The schedule is a very simple one, calling only for the areas sown to field crops and the numbers of farm animals alive on the farm in mid-June. Upon the resulting estimates of total areas sown are based the preliminary, provisional and final estimates of yield, which are of supreme importance in connection with the movement, financing, distribution and sale of the principal cereals, especially of wheat of which Canada is now the world's leading exporter.

The present plans for the collection of these statistics have been followed annually since 1917, and the estimates based thereon have come to be confidently relied upon by all interested in the production and distribution of Canadian grain.

Accurate statistics are indispensable for a proper appreciation of the national progress, and in order to ensure that the statistics may be as accurate as possible, it is earnestly hoped that farmers throughout the Dominion will not fail to render the small service required by filling up and returning the schedule issued.

If any farmer should not receive the cardboard schedule by the middle of June he should apply for same either to the school teacher of the nearest local rural school, or to his provincial Department of Agriculture; or to the Dominion Statistician at Ottawa. The aim is to obtain a completed schedule from every farmer, as the more numerous the returns, the more trustworthy will be the resulting estimates.

CANADIAN BRED BULLS GO TO UNITED STATES

Winnipeg, Man., May 18:—Because of a shortage of bulls in the northwestern United States, Martin Apland, livestock field man for the Greater North Dakota Association, has just purchased in Manitoba sixty shorthorns for distribution through the state of North Dakota. Mr. Apland travelled 725 miles for the purpose of getting the animals and was assisted in locating them by J. B. Davidson, western representative of the Dominion Shorthorn Breeders' Association and John Strachan, agriculture agent of the Canadian National Railways. The bulls, which range in age from 9 to 13 years, were bought at Brandon, Swan Lake, Miami, Jordan, Oakner, Newdale and Pope.

Pearce News

The Midland Grain Co. has every intention of building a new elevator at Pearce this fall providing the crops are good, and prospects at the present time could not be better but a good shower would be welcomed by all.

Seeding is practically all completed now except for a few coarse crops and summer fallowing is beginning.

The Pearce Tennis Court is expecting some visitors from Monarch next week for a few games.

Sir Henry Thornton, president of the Canadian National Railway will pass through Pearce on Friday, needless to say the section foreman, Mr. W. Monks, and men are doing everything possible to have things looking well.

Mr. P. Koole accompanied Mr. Cooke salesman for the, Adams Road graders to Rocky Coulee to inspect road gravelling.

The inhabitants of Pearce are looking forward to the starting of the new highway, operations will be commenced anytime now.

Mr. and Mrs. Cyril Watson of Lethbridge were visitors in Pearce Sunday at the homes of Messrs. Frank and Alf. Watson.

It is worth noting, also, that very few of the big jobs are held by men who like to carry three fountain pens in a vest pocket.

COMING EVENTS FORESHADOWED

LECTURE ON "APPLIED PSYCHOLOGY"

Jane Skirrow (Mrs. Jennie McDonald) will give an inspiring, instructive and interesting lecture on "Applied Psychology" in the Town Hall, Macleod, on Tuesday, May 29th, at 8 p. m. prompt. Subject: "Do You Know What You Want?" This lecture is to introduce the speaker's wonderful course of study on "Practical Psychology and Self Analysis." Everybody welcome. Free will offering. Phone 260 for further information.

TO MOTHERS AND OTHERS

Jane Skirrow (Mrs. Jennie McDonald) will give a series of parlor talks to mothers and others at the home of Mrs. O. H. Evans (the Stedman house, east of the school) from 3 to 4 o'clock p. m. on Wednesday, Thursday and Friday, May 30th, 31st and June 1st. Subject: "The Power of Thought." No charge. Phone 260.

W. I. Empire Day Dance Tonight

CAPITAL GOSSIP AND PROVINCIAL NEWS

Baby Chicks In Strong Demand

Over ten thousand chicks have been distributed during the past spring from the Provincial Government Poultry Plant at Oliver. Officials in charge of the plant report that the demand has been greatly in excess of the supply and that many applicants have been referred to other breeders and hatcheries for their requirements. The breeds represented in the shipments include White Leghorns, Barred Rocks and White Wyandottes.

Over three thousand chicks are being reared on the farm this spring, and in view of their increasing economic importance, a beginning is being made this year with turkeys.

Road to be Completed to Jasper

Work is being started during the present week on the completion of the road between Edmonton and Jasper, it is announced by Hon. O. L. McPherson, Minister of Public Works. A crew has commenced work on the section between Obed and Bliss, and it has been found necessary to follow the old railway grade for only about a mile. With the connection thus afforded with Jasper Park, a possible motor road right through from Edmonton will be provided. While it is not planned to do any gravelling on this road this summer, under satisfactory weather conditions it should be in good shape for motor traffic.

Two crews are also at work on the Peace River Highway between Lesser Slave Lake and High Prairie and work will commence shortly on the link between Smith and the eastern end of the lake. Some clearing and entirely new construction will be necessary on this section, connecting at Enilda with the Grouard and High Prairie Road. Conditions are reported to be considerably better along the route than during last season, and it is expected that good progress will be made with the completion of the highway.

Contracts Let For Northern Rail Extensions

Contracts for the northern railway extensions authorized by the Provincial Government from Whitelaw to Waterhole and from Wembley to Hythe have been awarded to Messrs. Roosa, Wilkstrand and Brooks. It is announced by the Department of Railways that work on the extension from Whitelaw will be proceeded with immediately, action on the Wembley-Hythe link being delayed to some extent pending the granting of the necessary charter by the Federal Government.

Alberta Fire Commissioner Honoured

Harry Brace, Provincial Fire Commissioner for Alberta has been elected president of the Canadian Fire Marshals' Association for the year 1928-29. Mr. Brace has just returned from the annual conventions of the above body and the Dominion Fire Prevention Association, held in Ottawa.

Changes In University Staff Announced

A. E. Ottewell who for the past several years has been head of the department of extension, University of Alberta, has been appointed registrar of the University, succeeding the late C. E. Race. Mr. Ottewell's place as director of extension work will be taken by E. A. Corbett who has been connected for some time with the work of this branch.

New Locomotives On Northern Lines

Four new locomotives, the purchase of which was authorized by the Alberta Government some time ago, have been received from the Canadian Locomotive Works at Kingston. These have now been placed in regular freight service on the Government-owned lines in the northern part of the province.

Busy Month For Telephone Department

An increase of 154 exchange stations and 93 rural stations, or a total of 247 new stations in operation during the month of April, 1928 is reported by the Provincial Department of Telephones. A new office was opened on April 16 at Nestow and construction is proceeding on new exchange buildings at Lloydminster, High River, Blairmore and South Calgary. Line extensions are being undertaken to Willingdon, Two Hills, Kaleland, Derwent and Beauvallon, the new towns on the C. P. R. Cutknife-Whitford branch. Collections for the month of April show a gain of 17,000 over those of the corresponding month in 1927.

GOVERNMENT CROP REPORT

Seeding of wheat is from sixty to seventy-five per cent. completed in the southern part of the province and from thirty-five to fifty per cent in central and northern sections and spring work is proceeding under ideal conditions, according to telegraphic reports received by the Department of Agriculture.

In a number of districts early sown wheat is well above the ground and a start has been made with the seeding of coarse grains. All reports indicate that the soil is in excellent condition as regards moisture. This is especially true of the central part of the province where rain and snow during the past week somewhat delayed spring dork. Seeding of wheat is general throughout the Peace River country mith sixty to eighty per cent. completed in a number of districts.

Reports from a number of districts in the province indicate that the 1928 wheat acreage will show an increase of from five to fifteen per cent. over that of last year, with very little difference in the coarse grain acreage except in localities in which spring work has been unusually delayed. The wheat acreage of the province will be limited to some extent by the small amount of fall plowing done last year, but in many cases this will be more than offset by the large acreage summer fallowed and newly broken in 1927.

Another week will see the completion of sugar beet seeding in the south of the province where a large acreage is being put in. Winter wheat and winter rye have come through the season very satisfactorily and in practically all cases good stands are reported.

Livestock generally is in good condition and pastures are making good growth.

DISASTER IN MATHER, PENNSYLVANIA MINE; 159 STILL ENTOMBED — THIRTEEN RESCUED ALIVE — EXPERTS GIVE UP HOPE THAT ANY OF THOSE STILL IN MINE WILL BE RESCUED ALIVE—SEVERAL BODIES DECAPITATED

Mather, Pa., May 21—The known death toll in the Mather mine disaster reached 46 today when rescue workers brought the bodies of seven additional victims from the explosion-swet workings. One hundred and fifty-two other miners, entombed by the blast, were being sought by rescue workers. Little hope was held that they would be rescued alive.

Mather, Pa., May 21 — With bodity of 39 miners recovered and taken to the homes of their kin, rescue teams from various sections of the soft coal belt carried on today in an effort to reach the 159 men still entombed in the Mather mine where an explosion late Saturday trapped 211 workers behind piles of coal and slate. Thirteen men were rescued alive.

Today the first official inquiry was started when a coroner's jury, comprising six men and augmented by inspectors from the state bureau of mines, delved into the cause of the blast. This is an unusual step, such investigations as a rule being held only after bodies have been recovered.

Except for the crowds of curious that have gathered in this village, Mather today was the usual quiet little mining town. Relatives of miners still trapped in the underground workings, while foregoing their usual daily pursuits, did not display any outward emotion. Dry-eyed and hopeful, they awaited word of their loved ones.

Hope Given Up

Mine rescue experts have given up all hope of returning any of the men to the surface alive, and while this feeling is secretly shared by wives, mothers and children of the entombed miners, outwardly they buoy their hopes on tales of other disasters where men were taken alive from mines several days following an explosion.

Two elderly people who have stood at the tipple since the news of the blast was broadcast, let it be known today that they have four sons inside the mine.

The explosion occurred at what is known as the 14th and 15th butts off the main channel. It is believed that a pocket of gas had been struck at one of the working faces of the mine, while others insisted the explosion was caused by dust.

Several of the bodies recovered were decapitated, minus arms and legs or in other ways mutilated. Brass workers' checks in many cases were the only means of identification.

One outstanding feature of the Mather mine was the large number of English-speaking miners who were employed.

Officials in charge today refused to express an opinion as to when the mine would be cleared of its dead, but intimated they believed it would be at least another 48 hours.

EMPRESS THEATRE PROGRAMME

FRIDAY—SATURDAY—
May 25th and 26th:
RIN-TIN-TIN in a new thriller—
"JAWS OF STEEL"
The popular dog star in a new picture.
NEW WESTERN SERIAL:—

WEEKLY CIRCULATION OF 1,400
Circulated in a prosperous town of 1,700 population and in adjacent prosperous farming district.

THURSDAY, MAY 24th, 1928

Glenwood News

The change in train service is now in effect. The weekly train now comes on Wednesday, instead of Friday.

Mr. and Mrs. Robert Purvis have left Glenwood for their home in Toronto. They spent the autumn and winter here. Mr. Purvis sold his car to Max Ehlert and returned to Toronto by train.

Myron Layton and wife spent the past week in Calgary. They returned to Glenwood early Friday morning.

Mrs. Jane Laidlaw, who spent a few days visiting in Raymond, returned home Wednesday.

Mr. Caswell of the Alberta Credit Societies will be in Glenwood Wednesday, May 23rd to meet with the members of the Beet Credit and Rural Credit's Societies.

Miss Asplund, who teaches school at Hill Spring spent the week-end with her brother here.

Sunday School Conference was held in the L. D. S. Church yesterday. D. O. Wight, J. W. Low, and others from Cardston were in attendance. Special class exercises were presented. At the evening services the "Gleaner" girls rendered a specially good program of musical and literary numbers.

The local school board has signed the contract for the erection of the two room unit of the new school house. The building is to be completed by August 15th. Mr. Wynder of Cardston is the contractor. Work will commence on this building some time this week.

Clarence Wight and family spent Sunday visiting relatives at Leavitt.

The management of the Riverside Pavilion on the river north of Glenwood, will give their opening dance of the season on Friday night with the Pincher Creek Orchestra in attendance.

Sidney Billingsley, who has been doing missionary work for the church in California for the past two years, has been released and will return home shortly.

Orton News

The W. I. held a dance last Friday evening at the school house. A fairly large crowd was out. Ice cream was sold and the proceeds of the dance is to be used to defray expenses of a delegate to the convention at Calgary.

Pres. Geo. W. Green and wife and Mrs. Holman were visitors to Orton on Thursday of last week. Elder Green submitted the plans for the new church house to the local authorities for their approval. It is expected that work fill start on the proposed building next month. There has been collected nearly a thousand dollars in cash and several of the men have promised to contribute a considerable amount of labor for which the general church authorities will furnish an equal amount in cash for all the work and cash donated locally.

VIOLET DAY

Owing to the inclement weather on the Saturday before Easter, during the last four years, Violet Day was changed to the Saturday before Empire Day, this year.

The funds are used to finance the Annual Public High School Commencement, on the second Friday in September, and the senior groups of the C. G. I. T. have charge of the tagging.

At the Commencement, three prizes for proficiency are given to each grade. The walls of the classrooms are decorated with the most perfect work the scholars have done during the year. The teachers give a number of special prizes, and the school presents a programme to the public.

At the close of the afternoon, ice cream and cake are served to all the pupils and citizens who attend. This is the great day in the school year, and adds a romantic touch to public school education. It is looked forward to, from the primary to grade 12. Violet Day is always held to help cover the expense.

The committee in charge, gratefully acknowledge $72.68 from Saturday, and wish to thank the public for their pleasant and courteous treatment of the young girls who worked so hard in the interest of their school.

Facts About the Company's Holdings

PROPERTY—The property consists of five Crown Granted mineral claims and fractions known as "Northern Bell", "Dublin Queen", "Kootenay Star", "Orphir", and "Labor Day Fraction", comprising approximately 230 acres.

LOCATION—The property is located in the centre of the Slocan mineral area of the West Kootenay district of British Columbia, 18 miles from Kaslo, and six miles from Retallack station on the Kaslo-Nakusp branch of the Canadian Pacific Railway. The shipping point is Retallack.

The claims are located in the Jackson Basin, and are surrounded by such well known mines as WHITEWATER, LUCKY JIM, RUTH HOPE, BLUEBIRD, NOBLE FIVE, SIVERSMITH, SURPRISE, SLOCAN RAMBLER, CORK PROVINCE, and the UTICA. The claims are 5800 feet above sea level and 2800 feet above shipping point.

ACCESSIBILITY—The mine is reached by a good automobile or truck road with a grade not exceeding 10%, and there are no adverse grades from mine to railroad.

GEOLOGY—The formation consists of solid shales and limestones cut extensively by porphyry dykes and greenstone. There is also included in this series dark grey to black agrillaceous, siliceous, carbonaceous sediments with both laminated and massive slaty types.

VEIN—A well-defined vein intersects the formation in a northeasterly direction, which can be traced for more than 3000 feet, showing ore. The greater part of this distance is proved to a depth of 700 feet from the apex of the mountain on the uppermost claim. The vein is shown in width in places of more than 40 feet.

ORE—High grade ore has been encountered throughout the mine, running from $50 to $100 per ton in silver, lead and zinc, and mill-feed shows in lenses of considerable length in walls along the tunnels.

DEVELOPMENT—There are five adit tunnels—Nos. 1, 2, 3, 4 and 5, aggregating more than 5000 feet, and a shaft was sunk 250 feet through commercial ore. Considerable cross-cutting, opening up new ore bodies, has been completed.

TREATMENT—All the clean ore, being straight silver-lead, goes direct to the Smelter. The second class ores would have to be milled by flotation concentration. These ores, being of coarse crystalline character, are very adaptable to flotation and good recoveries can be made.

EQUIPMENT—Equipment on the property consists of camp buildings, tracks, cars, engines, hoists, concentrator and tools.

TRANSPORTATION—A good road leads from the mine to the station at Retallack for truck haul—from which ore will be shipped and sent to the Trail Smelters. There can be constructed an aerial tram 3½ miles in length with a profile grade of not more than 10% from the mine to the railway station. It is estimated that ore can be delivered to the Smelter at a transporation cost under $5 a ton.

WATER and TIMBER—Ample water and timber for power and domestic use are close at hand, the Company holding two water rights.

SILVER BASIN MINES HAS BEEN EXAMINED BY VERY EMINENT AND REPUTABLE MINING ENGINEERS AND GEOLOGISTS, THE CONSENSUS OF WHOSE OPINION IS THAT THE PROPERTY IS DECIDEDLY MERITORIOUS, POSSESSING POSSIBILITIES OF BECOMING ONE OF THE PRINCIPAL MINES OF THE SLOCAN MINING DIVISION OF BRITISH COLUMBIA.

WEDDING BELLS

STOUCK—CALLIE

A quiet wedding was solemnized on Monday, May 7 by Rev. Dickson of Knox Presbyterian Church Calgary. When Mr. Arthur Stouck son of Mr. and Mrs. Frank Stouck of Claresholm was united in marriage to Miss Isabelle Callie, daughter of Mr. and Mrs. J. M. Callie of Marleod.

The bride and groom will reside in Claresholm.

Man is an animal who lets his infant progeny alone and then feels mistreated because it doesn't like him as well as its mother.

There's one consolation. As machines throw men out of work, they can become salesmen; and there never will be a mechanical drummer.

Correct this sentence: "She married a man twenty years her senior," said the gossip, "and he is very poor."

Why does a woman get sloppy after getting married? Well, does a man carry a gun after the war is over?

There's always something. If Lindy keeps on flying, he may get hurt; if he quits, the workmen in medal factories get laid off.

Cut away section of a Gum-Dipped Tire showing one cord untwisted into 15 strands. Every fibre of every strand is insulated with rubber.

Why Gum-Dipping Increases Tire Life

A tire in use is being constantly bent backwards and forwards by road action. Such movement generates friction and heat that has a deteriorating effect unless the tire is built to withstand it.

In the carcass of a Gum-Dipped tire there is less friction to generate heat because Gum-Dipping puts a coating of new live rubber around each separate cord that keeps it from rubbing against the cords that lie next to it. It stays cooler and therefore lasts longer.

Your local Firestone Dealer will gladly advise you on your tire problems. See him today.

MACLEOD NEWS

S. R. Fraser, of Edmonton, was a visitor here on Monday last.

The Calgary-Lethbridge bus line is being well patronized and passengers report favorably on the pleasant journey and the smooth riding of the busses.

S. Heap attended the Cochrane Race meeting last week and watched his two horses in their first races this year. Wiley ran second after leading by over a length fifty yards from the post, while Carpathian was unplaced, the latter horse not yet being in condition.

Sergeant C. H. Clarke in charge of the R. C. M. P. detachment at Canmore, was in Macleod this week visiting his parents Mr. and Mrs. T. Clarke.

Word has been received from Miss Annora Brown, daughter of Mr. and Mrs. E. Forster Brown, who has been studying at the Ontario College of Art, Toronto, that she has again been successful in gaining a scholarship, a cash prize and honors in several subjects. Miss Brown will not return home for two weeks, as she is helping one of the professors with some of his commercial work.

At a meeting of the Macleod Base Ball executive and players held on Tuesday evening it was decided to make an effort to secure two players from Glenwood to strengthen the Macleod aggregation—and with local material available this should make a champ team. First game in the Southern Alberta Base Ball League is scheduled for Wednesday, May 30th—efforts being made to have same at Macleod. Games schedule will be published next week.

Thursday at 8 p.m.

RATHWELL NEWS

Sunday next (May 27th) service in the Rathwell School House, time 11 a.m. Preacher Mr. F. Crowson. Come and enjoy the service.

REGULAR MEETING OF MACLEOD TOWN COUNCIL

The regular meeting of the Macleod Town Council was held at the town hall on Monday evening last. When Mayor McDonald called the meeting to order the following councillors were present: J. Swinarton, A. McLeod, W. A. Day, W. J. Stevens, W. O. Hoodless and Claude Tweed.

The Secretary reported that the Utilities Commission has disallowed the grant of seven hundred dollars for the use of a car for police purposes.

A grant of two hundred dollars was given for the improving and repairing the Exhibition buildings and grounds.

The Macleod Elks made application for the right of using the north end of 2nd Avenue from 24th Street for the purpose of holding a midway at the Elks carnival.

Mr. Hugh Mackintosh addressed the council regarding the roads and highways north, east and south of Macleod.

The regular accounts for the month and grants to schools were ordered to be paid.

President Sutherland, of the Board of Trade interviewed the Council and suggested many improvements to be made at the Exhibition grounds, and which he suggested should be done prior to the fair this year.

Mr. S. Baker interviewed the Council in regard to securing a lot on 24th Street (between 2nd and 3rd Avenues) for the building of a store.

MACLEOD BOARD OF TRADE BACKS SCHOOL FAIR

The Macleod and District Board of Trade met Monday night for the semi-monthly meeting, J. B. Sutherland, the president, presiding.

A considerable amount of routine business and correspondence was gone through. It was reported that the tourist camp is now open at the police barracks the same as last year.

The question of the agricultural fair and school fair to be held on August 14 and 15 was discussed and a resolution was passed to offer a silver cup to the school district gaining the largest number of prizes at the fair the cup to be the property of the district if won three years. This shows that the Board of Trade is taking a lively interest in the agricultural fair this year.

CROP OUTLOOK FOR THIS YEAR GOOD

Crop conditions in the Macleod district are more than favorable, the hot weather during the past few days has helped germination and it is really surprising the growth the wheat has made during the past week.

There is a greater acreage sown in wheat this year than last, especially so in the Granum district, where the farmers, who are ever of the optimistic class are hoping for a bumper year, and according to present weather conditions their hopes should be verified.

In the south district the farming operations are a little behind those of the east and north districts on account of the large amount of moisture they received during the spring in Standoff, Ardenville, Ewelme and Glenwood and other farming communities in the south of Macleod.

There is a large acreage being sown this year to oats, also many fields of alfalfa, clover, brome and other grasses.

About ninety per cent of the wheat is now seeded in this district.

NOT only is the "Bigger and Better" Chevrolet a finer car mechanically . . . not only does it offer more thrilling performance and more delightful riding comfort—but it is infinitely more beautiful and more superbly styled!

Every one of the seven new models is worthy of detailed comparison with cars costing hundreds of dollars more—not only in brilliance of design and execution, but in completeness and richness of appointment as well.

The new Fisher bodies are artistically beaded and paneled—with long, racy lines. The new genuine Duco colors are modish and smart.

Interiors, too, are impressively luxurious—rich upholsteries, wide, restful seats and a beautiful, new, completely enclosed instrument panel.

Come in and see for yourself the beauty you've always wanted! We'll gladly place a car at your disposal—for an actual road demonstration.

The G.M.A.C. . . . General Motors' own deferred payment plan affords the most convenient and economical way of buying your Chevrolet on time.

Saturday Night Service

Despite the fact that we have enlarged the working capacity of our store we find that we are so busy on Saturday afternoons and evenings that it is becoming increasingly difficult to give our patrons the efficient service we think is their due. Many of our country customers as well as those in town have telephones, and we should appreciate very much their 'phoning in their orders on Saturday mornings, when we have more time to devote to looking after them, and a more complete stock from which to fill them. By Saturday evening we have quite frequently sold out of many lines of perishable products brought in each Saturday especially for week-end business, and late buyers are necessarily disappointed. We are confident that we have only to make this suggestion to have it acted upon by those who have 'phones, with the result that we shall be enabled to render more satisfactory service to them, as well as to those who have no 'phones and so must bring in their orders personally later in the day. Our staff understands the problems of busy people at this busy season and above all things else our wish is to serve you more efficiently.

THE 24th OF MAY—LETS CELEBRATE

We are going to give you Bargains. If you don't see any in the store look around—ask the clerks. Often the tickets are knocked off or misplaced. If you can't see any, wait while we make some for you.

HOUSE DRESSES

We must clean them out and will offer you your choice at $1.00 each. It will be nice to sell them all, so at this price they must be snapped up to make room for fresh goods. Ladies' Art Silk Hose at 50c per pair should find ready buyers.

Stanfield's Pure Silk Underwear we will offer at 20% off. Seven different varieties of Ladies' Underwear. Our manager says he can understand why there is not more of a demand for Children's and Misses White and Colored Middies. Like some other styles they go out of style and are resurrected later. Some schools in the East are adopting middies as a regulation school garment. What prettier sight could you get—a whole school dressed like that.

MEN'S CORDUROY PANTS

are selling at cost. A few breeches also. Hunting and shooting is coming on—Men's Khaki Pants at cost.

LOCAL AND PERSONAL NEWS

W. Johnson was a visitor to Lethbridge this week.

H. M. Howard, of Calgary, was a visitor to Macleod on Thursday last.

Chief Nichols, of the Lethbridge City Police, was a business visitor to Macleod on Tuesday of this week.

Charlie Thompson, well known oldtimer of Granum, spent a few hours with his friends in Macleod.

M. H. McKenzie, now of Cardston, was the guest of his mother at Macleod on Friday of last week.

F. Perkins is confined to the house suffering from a badly sprained ankle.

Mr. and Mrs. E. Cummings, who have been spending the past twelve months in England, are now on their way back to Macleod.

Mr. and Mrs. W. Kelly, of Calgary, were auto visitors to Macleod this week, while here they were the guests of Mr. D. Gillen.

Miss Jean Rothney, nurse at the children's Red Cross Hospital, Calgary, is spending her holidays with her parents, Mr. and Mrs. J. S. Rothney.

Detective Sergeant Engle, of the Alberta Provincial Police, was a business visitor to Macleod on Tuesday of this week on important business.

Miss Dorothy Armer, who is in training at the Calgary General Hospital, arrived home for her holidays on Friday last and will spend three weeks with her parents, Mr. and Mrs. W. Armer.

Miss Irene Young, fifteen year old daughter of Mr. and Mrs. J. Young, Macleod, in competition in the Senior Gold Medal Piano class at the Musical Festival at Lethbridge came 3rd the adjudicator said regarding Miss Irene that she had clever fingers, showed good finish, and played with real feeling. In the two test pieces she made 80 and 88 marks respectively. Miss Irene's standing in the Festival makes her eligible for the Mellor-Langdale $100.00 scholarship to be competed for this coming fall.

R. Rennie, of Michel was a visitor to Macleod for a few days this week.

Indian Agent Arthur, of Brocket, was a visitor to Macleod last week.

R. T. Barker has purchased a new Dodge sedan from the agents in Lethbridge.

Miss Heard, of Waterton was operated on this week for appendicitis.

Mrs. J. McDonald, of Calgary, is a visitor in Macleod for a few days this week.

T. E. Jones, D. F. Winteringham and D. L. Males, of the Chrysler service Calgary, were Macleod business visitors last Friday.

Arthur Scheer, of Edmonton, well known oldtimer in the Macleod district is here for a few days vacation, the guest of his mother, Mrs. M. Scheer.

Mrs. E. Whipple is leaving Friday for Toronto to attend the Annual Meeting of The National Council of Women as a delegate from the Macleod Local Council.

The 93rd Battery will parade on Thursday evening, May 31st at 8 p. m., at the Armouries. All members should attend as arrangements will be made for camp at Sarcee on July 16th.

Mr. and Mrs. Earl MacGregor, who were married in Calgary recently, returned from their honeymoon on Thursday last and have taken up their residence in Macleod.

We have just had the pleasure of visiting the garden of W. J. Ryan in Macleod, where we saw a beautiful sight of apple trees in full bloom. One tree of the Duchess variety will be loaded down with fruit if nothing happens to it, as it is covered with bloom. Several of the trees have been bearing fruit for a number of years, and have produced beautiful large apples, especially the one that is so full of bloom this year. The trees are well protected and sheltered from the winds, and seem in a very healthy condition.

J. S. Swinarton is a business visitor to Edmonton this week.

J. W. McDonald, K. C., was a motor visitor to Barons and Carmangay on Tuesday last.

T. H. Stedman accompanied Judge MacDonald to Blairmore this week on judicial business.

Forest Ranger Harrison, of Cranbrook, was in Macleod for a few days last week.

Hughie McLean who has been confined to the Edmonton hospital is still very sick, and his progress towards recovery is very slow.

J. Hicks, barrister of Macleod, was in Barons this week looking for an office where he intends to operate a law business.

Jack Smith, well known farmer of the Mud Lake district, returned a few days ago from a six weeks' vacation spent at Vancouver, Victoria and other coast cities. Mr. Smith reports a real enjoyable time with the exception of a few days of bad fog.

Another week of fine weather, has practically cleaned up the seeding of wheat in the Macleod district. There is still odd patches to be seeded but another few days will see wheat all in the ground. There is still some oats to be seeded but mostly for green feed. The growth of wheat has been very rapid, several reports have come in of early sown wheat being now from 6 to 9 inches high. A good day's rain now would help out considerably especially on the lighter soil. Grass is exceptionally good all over especially west in the hills, but rain in some places on the prairies would be beneficial.

C. A. Davidson, highway commissioner for the province of Alberta, was a visitor in Macleod Friday of last week. He was consulting with town officials regarding the grading of the Red and Blue trails within the town limits. W. A. Day, chairman of the finance committee, and J. Swinarton, chairman of the works and property committee of the town council, went out with Mr. Davidson and went over the roads. No definite arrangements were made as Mr. Davidson will have to report on the matter first. Mr. Davidson also visited the Bright municipality office and was in consultation with H. W. Bright, secretary of the district, in connection with some of the municipal district roads.

P. W. Pennefather of Calgary was a visitor to Macleod on Thursday last on business, being a representative of the Alberta Insurance Agents Association. While here Mr. Pennefather renewed many acquaintances of former days, he having been Sergeant Major of the R.N.W.M.P. stationed at Macleod in 1888. His first trip to Macleod was in 1886, when he was moved to Battleford as one of a relieving party when "C" Division was transfered to Battleford and "D" Division took their place in Macleod. He returned to Macleod in 1888 as Sergeant Major in charge of this division. After seven years spent in the Yukon Territories and five years at Prince Albert he again returned to Macleod, this time with the rank of inspector in the "Mounties." Five years later he was made Superintendent of the Lethbridge Division. Mr. Pennefather expressed his pleasure at again being in Macleod and renewing old friendships.

Judge A. M. MacDonald was a business visitor to Blairmore on Monday last.

Mrs. O. C. Edwards, provincial vice president of The National Council of Women, leaves on Friday to attend the annual meeting in Toronto.

Harry Gilroy is a good guesser he won the ham at Hartley's Meat Market by guessing how long the block of ice would last. The guess 12 p. m. Sunday (midnight. The ice was finished at 10.50 p. m. Sunday evening lasting 78 hours and 50 minutes.

Mr. and Mrs. H. V. Clarke, who are spending an enjoyable motor vacation in Ontario and other eastern provinces, report a wonderful holiday, with perfect weather. They arrived at Elleslie on the 18th inst., where Mr. Clarke enjoyed his first fishing excursion, bringing home a nice catch of 38 beauties for supper.

ADDITIONAL LOCAL NEWS ON PAGE THREE

BIG SOCIALIST GAINS ARE MADE IN GERMANY IN SUNDAY VOTING

Berlin, May 21.—Returns today from Sunday's election of a new reichstag indicated that the Socialists were the strongest political unit in Germany. The Socialists registered decisive gains while the German Nationalist party's losses were conspicuous.

Approximately 31,000,000 Germans voted and nine million of them voted the Socialist ticket.

If al lthe conditions regarding the distribution of the surplus on the reich lists are fulfilled the composition of the new reichstag will be:

Socialists, 150.
German Nationalists, 72.
Centre, 60.
Peoples' party of Germany, 52.
Communists, 51.
Democrats, 25.
Bavarian Peoples', 16.
Economic, 23.
Fascists, 13.

B. C. MINE STIRS INTEREST HERE

Announcement of the latest British Columbia mine flotation is made by G. F. Tull and Ardern, Limited, Calgary and Lethbridge.

This property is virtually surrounded by producing mines in the Slocan district. Several engineers have made gratifying reports on the property which embraces the Northern Bell, Dublin Queen, Kootenay Star, Ophir and Labor Day Fraction claims.

Aside from the high grade ore which the claims contain, and which have been opened up by tunnels, shafts and cross-cutting, it is particularly attractive from an operating standpoint by reason of its transportation facilities. A good road leads from the mine to Retallack, a station on the C. P. R. This road is excellent for autos or trucks with a grade of not more than 10 per cent. for the six miles from the mine to the station. The property is only 18 miles from Kaslo.

The mine will be shipping ore June 15th.

The district has been known since the early mining history of British Columbia as Jackson Basin in which are situated such well known mines as Whitewater, Lucky Jim, Ruth Hope, Noble Five, Silversmith, Slocan Rambler, Cork Province and Utica.

Equipped with good camp buildings, tracks, cars, hoists, engines, concentrators and tools, the property is in good shape for commencement of operations at once. There is ample water for power supply and plenty of nearby timber for mining purposes, which, according to mining engineers, is a further advantage to the economical development of the rich ore which runs from $50 to $100 per ton in silver, lead and zinc.

J. R. Higginbotham of the staff of G. F. Tull and Ardern, Calgary, is in the city, registered at the Queens. He will be calling on business men and investors in connection with the issue.

The offering has been rapidly subscribed at Calgary and Vancouver, according to Mr. Higginbotham, and only limited amounts are available for Lethbridge and Macleod participation.

Why do cities and states make Pasteurization of milk compulsory

The newer knowledge of nutrition teaches them that it is the only safe and sanitary way to handle milk. Make up your mind to use only our
